

NEBS Company Profile

The vision for offering an international quality Electrification job to the Nepal market started in the year 2066BS (2008AD) to a group of technical entrepreneurs and they established National Electric & Building Solution Pvt. Ltd., (NEBS) on Asadh 26, 2066, under the Company Act of Nepal Government at Company Registrar Office, Ministry of Industry, Department of Supply Management and Ministry of Commerce.

With the story climbing up, focusing on the Electrical sector the team felt the market requirement for offering similar services to other sectors like Telecom, Sanitary / Plumbing, Firefighting and HVAC works, Thus, started the association with various companies, both local and global.

Today, the company is a well-established Electrical & Building Solution provider offering top class services and installation standards. We have established a strong reputation for a diverse range of services on nationwide residential, commercial, telecom and industrial sector. The company has been providing services in the field of Electrical and Allied works survey and design including estimation. The allied works comprises of communication/instrumentation systems, computer networking, fire alarm system, surveillance system, public address system and others. The Company is a turnkey solution provider right from the concept traced through CAD and up to its implementation.

The company is backed up with the expertise brought about with a team of employees, resources and support from reputed vendors across the globe.

Our Project Management teams have reputation for getting the job completed on time, within budget and to clients' total satisfaction. The project team which constitutes project managers, engineers, supervisors, CAD operators, finance and procurement/store work closely to deliver the best value.
